WILCOX LOBO ESCONDIDO OLMOS SAN MIGUEL AUSTIN CHALK EAGLE FORD BUDA

## We're bullish on South Texas.

Laredo Energy is focused on the development of natural gas and oil reserves in South Texas. We are developing our 125,000 acre position in Northern Webb County after successful horizontal completions in the Eagle Ford, Austin Chalk, Olmos, and Escondido formations, along with vertical discoveries in the San Miguel and Wilcox.

Our management team has worked together since 1983 and has drilled more than 300 wells in Webb and Zapata Counties.

We actively pursue new leasing opportunities and the acquisition of producing properties. So, take the bull by the horns and get in touch.
